Advanced and Distinctive Styles in Spring Millinery
Will be Ready for Your Inspection

New Prints and Gingham

We consider ourselves most fortunate in having such a liberal supply of wash goods. Gingham and Prints are scarce in most places.

Large plaid patterns are in greater demand than ever, and some beautiful patterns are shown. We also have the usual assortment of small checked patterns.

Prints

In Navy, Butcher blue, Greys, and plenty of lighter shades are here for your selection.

Dresses, Suits and Coats

For Spring are Here
Every woman is interested in new styles, and she will naturally come here to see what is correct in spring dress.

The street dress is favored for spring they are finely finished and of very fine quality wool serge, and Jersey cloth.

Sport and Full Length Coats of Wool Velour are Greatly Admired

Suits of Botany Serge and Fine, All-Wool Tricotine are silk lined. Some have fancy silk vest, while others are plainly tailored

Curtain Materials

It's time to choose these new curtains. We are showing the very newest patterns and colorings, and no woman wants old style curtains after seeing the lovely new styles now shown.

Apple Special for This Week

Good quality loose packed apples. Box \$2.50 Only a small lot to sell.

Celery, Cabbage, Carrots, Parsnips and Turnips.

Canada: A Nation In A League of Nations

Participation in the Great War carried Canada into world politics. Prior to the war many Canadians had got into the habit of referring to Canada as a nation, but when it came down to a definition of our legal and international status it had to be confessed that we were still a colony, a dependency of Great Britain. The Great War has finally changed Canada's position in the world. Great Britain no longer looks upon Canada, Australia and other overseas dominions as colonies or mere dependencies, but as sister nations with British herself, the whole united in one partnership of equality under one Crown and forming the British Empire.

Recognition of Canada's changed status is not confined to the Empire itself; it is now officially and legally recognized in an international sense by the admission of Canada as a nation in a world League of Nations, a League wherein Canada has equal standing and equal responsibilities with all the sovereign nations of the world. Canada's right to such a status may be questioned, and recognition delayed, by the United States Senate, but it is accepted and approved by all other nations, and the United States will either have to accept it or remain outside the League of Nations.

Because of this change in the international status of the Canadian Dominion, and the new responsibilities imposed upon Canada, it is not only right but necessary that our people should take an interest in, study, and endeavor to understand international questions, world politics, international finance, and all the many questions which have a vital influence upon the interests of the world's public opinion. No longer can Canadians be content to allow the British Foreign Office and the British Parliament to settle all international problems for us; we must now study, understand, and take an active part in the settlement of all such problems ourselves.

Undoubtedly one beneficial effect of this larger interest and vision in world affairs will be to broaden the view of our people in the consideration of domestic questions. As time passes we are likely to become less petty and parochial in our home politics as we learn the necessity of compromise, and a policy of give and take, in the settlement of the many knotty international problems created by geographical barriers, and racial and creed divisions. Administering a world-wide empire, the people of the British Isles long ago learned this lesson of tolerance, and appreciation of the other fellow's viewpoint, and having learned it, it became Britain's greatest asset in successful colonial administration and world diplomacy. Canadians will learn the necessity of tolerance in dealing with great international problems, and by the application of a greater tolerance at home many of the prejudices which now retard Canadian development will fade away.

In the past Canadians have been too self-centred. Lacking that close intercourse with other nations and peoples, which our new international status will force upon us, we have failed to appreciate many of the fine qualities of races whom we have brushed aside as "foreigners"; we have failed to learn from them many things which would have added richness and variety and strength to the life of Canada; we have been too intent upon the practical problems of Canada and the reaching of solutions by ourselves without regard to the history of other nations, and have thus frequently made mistakes which could easily and ought to have been avoided.

ed by a consideration of the solution of similar problems elsewhere. The introduction of the larger issues of world politics into the political discussions and life in Canada will not serve to weaken our interest in, or divert our attention from, domestic problems and issues; on the contrary, it should serve to strengthen the determination of our people to approach and settle them in a bigger way than ever before in order that Canada may become more and more united and better fitted to perform its part with honor and credit to itself as a nation in the League of Nations.

Formerly a debtor country to Great Britain, United States and other countries, Canada today has become a creditor nation. Belgium, Rumania, France and other countries are now in Canada's debt. We have a direct interest in their welfare and stability. Canada has established a great mercantile marine, with ships plying to and from all parts of the world, and within a year or two the number of ships flying the Canadian flag will be two or three times greater than today. Canada's international trade and commerce is expanding by leaps and bounds. A new national consciousness is at work which is the outgrowth of the war and our new national status and dignity.

If this new consciousness is developed, and the people of Canada lay aside their old sectarian quarrels and bitterness, and set themselves energetically to the task of developing their own natural resources, and increasing production for world consumption, they will quickly find their Dominion forging ahead to that place which destiny intended Canada to occupy, and the hope of which was the inspiration of the fathers of Confederation, and the dream of our earlier pioneers.

GEE, I'M HAPPY My Catarrh All Gone

Suffered Like a Boob for Years—Got Relief In Ten Minutes

Catarrhoxone Did Cure

That's the way hundreds of the boys around town are talking since Catarrhoxone got into the drug stores. Nothing on earth like Catarrhoxone to really cure Catarrh, Colds or Bronchitis. "Catarrhoxone" isn't a drug—it's a healing vapor full of pine essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhoxone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhoxone. All dealers sell Catarrhoxone, large size which lasts two months, price \$1.00; small size 50c; sample size 25c.

Coming of the Cattalo

New Breed of Cattle to Face Severe Weather

Maxwell Graham, director of park animals, who is in charge of an exhibition of buffalo robes and heads, stated at the office of the Canadian Fur Auction Sales company, Montreal, that a new animal had been created, called "Cattalo," by cross breeding buffalo and common cattle. This new breed retains much of the hardness of the bison and is injured and facing driving storms. It has a coat of shorter, but glossier hair than the buffalo, and, in the opinion of many, makes a more beautiful robe. In size, the cattalo is larger than either of its parents. When used for food it furnished many good cuts. So far great success has attended the government's experiments in the cross breeding of buffalo and cattle, and its efforts will be carried still further. The departments of the interior and agriculture are making the experiments.

Nine Thousand Persons Shot
A dispatch received from Warsaw says the report of the committee of the struggle against counter revolution officially announces the number of persons arrested during the past three years as 28,000. The number of persons shot, says the report, was 9,641.

Bad temper is like the scorpion which stings itself. Every fit of anger injures most the soul that indulges in it.

The bravery of some men is like that of bulldogs; they haven't sense enough to be afraid of anything.

Settlers' Wives Learn How Creameries Are Run

Short Course Given at Moose Jaw Creates Unusual Interest

Unusual interest is being taken in the short course now being given at Moose Jaw, Saskatchewan, for the wives of the soldier settlers from the outlying districts. On March 1st, 60 of them arrived in this city to participate in the course. They were given a warm welcome by the ladies of the city.

Some of the subjects dealt with in the course are:

1. Butter-making, by P. E. Reed, Dairy Commissioner for Saskatchewan.
2. Practical work on farm butter-making, by W. Harkness, S. S. B. Supervisor for Swift Current.
3. Demonstration of creamery plant in operation, showing sterilization, pasteurization and milk testing, by J. A. Caulder, manager, Moose Jaw Creamery, assisted by Mr. Logan and Mr. Harkness.

Price of Seed Wheat

Reduction Made in Interest of Farmers Who Suffered Crop Failure

The Canadian Wheat Board has issued an order reducing the price of wheat, sold locally from country elevators in the Prairie Provinces for use as seed, to \$2.45 per bushel. Fort William basis, this price to be effective from midnight, February 21, until further notice. Prior to this order the price of seed wheat was the price to millers (\$2.80), plus one cent, with an increase of one cent every 15 days from December 31, 1919. This reduction was made in response to resolutions passed at the annual convention of the United Farmers of Alberta and the Saskatchewan Grain Growers' Association, asking in the interest of farmers who have suffered crop failure, that the price of seed be reduced to \$2.40, Fort William basis.

Wanted it Unlearned

Over the telephone a worried voice addressed the proprietor of a small hardware store. The speaker began: "I come in your place today and bought one of those dollar alarm clocks, and you set it for me to go off at 5 o'clock in the mornin'. Dye remember?"

"Yes," said the hardware man, "I remember."

"Well," went on the other, "I've just found out that I don't have to get up at 5 o'clock in the mornin'."

"Glad to hear it," said the hardware man, "but what do you want me to do about it?"

"I want you," said the customer, "to tell me how to unlearn this clock."

"It's four years since he left me," wailed a deserted woman with tears in her eyes. "I remember it just as well as yesterday, how he stood in the door holding it open until six flies got into the house."—Newtown Kansan.

Remove Those Unsightly Warts

By applying Putnam's Corn and Wart Extractor. It cures corns, warts and bunions permanently, painlessly and surely. Every druggist in America recommends and sells Putnam's Extractor; it's the best 25c per bottle.

Building Activity at Calgary

Many Handsome Business and Public Buildings to be Erected

The program of construction of new business and public buildings which will be commenced at Calgary this year already totals well over \$2,000,000. They include a normal school and a school of technology and the new post office, contracts for which are being awarded, and the \$300,000 Allen theatre, the Herald addition costing \$100,000, and a \$50,000 addition to the Yale Hotel.

The new Normal School and Institute of Technology will be situated north of the Bow river, in the north west part of the city, and will cost approximately one million dollars. Plans of the structure show that it will be one of the most imposing educational institutions in Western Canada. The building has been designed by R. P. Blakey, provincial architect, and is in the Collegiate Gothic style, laid out in the shape of a capital "T". The new structure will face the city on a site of 110 acres.

U. S. Airwork

During the War

Congressman Says Not One Battle or Bombing Plane Was Produced

Washington.—Flatly opposed views of the aviation accomplishments of the U.S. during the war were expressed in congress during a session devoted entirely to discussion of divergent reports arising from prolonged investigation of aviation matters by a special committee.

Representative Magoe of New York, who was a member of the committee which investigated aviation expenditures during the war, declared that not one American-built battle or regular bombing plane was produced during the war from the expenditure of more than a billion dollars.

Made Her Feel Like A Different Person

WHY MRS. MILES WOOD RECOMMENDS DODD'S KIDNEY PILLS

She had kidney troubles and her feet swelled, but she states she found the relief she looked for in Dodd's Kidney Pills.

Ardan, Ont., March 15.—(Special.)—"Dodd's Kidney Pills made me feel like a new person." That is the statement of Mrs. Miles Wood, a well-known and highly respected resident of this place.

"I was troubled with my kidneys," Mrs. Wood continues, "and my feet swelled. I tried Dodd's Kidney Pills with the result that the swelling is nearly all gone and I feel better in every way."

"To any person who is bothered with kidney trouble or with their feet and legs swelling I would say 'use Dodd's Kidney Pills.'"

The women of Canada have come to look on Dodd's Kidney Pills as a standard remedy for their kidney ills. They act directly on the kidneys. They are purely and simply a kidney remedy. By putting the kidneys in good condition so strain all the impurities, all the acids of disease, out of the blood they carry good health to every part of the body. Ask your neighbors if Dodd's Kidney Pills do not help all kidney ills.

Creamery Butter Production

Dairying Is Advancing Rapidly in Saskatchewan

Saskatchewan is fast coming to the front as a dairy producer, but even more rapid development is looked for in the future. Quality counts, and everything that can be done in the way of emphasizing the need for a higher quality of butter is considered a step in the right direction.

When Baby Is Cross

Mothers, when your baby is cross—when he cries a great deal and no amount of attention or petting cheers him—something is the matter. It is not the matter of little ones to be cross and peevish—the well child is a happy child. Give him a dose of Baby's Own Tablets, and he will soon be well again. The Tablets are a mild, but thorough laxative, which regulate the bowels and stomach, banish constipation and indigestion, break up colds and simple fevers, and relieve the other minor ills of little ones. Concerning them Mrs. Oscar Bedford, St. Sophie, Que., writes: "Baby's Own Tablets are an excellent remedy for constipation. They relieved my little one when nothing else would, and I can strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Cold in the Head"

It is an acute attack of nasal catarrh. Persons who are subject to frequent "colds in the head" will find that the use of HALL'S CATARRH MEDICINE will build up the system, cleanse the blood and render them less liable to colds. Repeated attacks of acute catarrh may lead to chronic catarrh. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. All Druggists 75c. Testimonials free. \$10.00 per bottle. Write for literature. HALL'S CATARRH MEDICINE will not cure.

J. J. Carney & Co., Toledo, Ohio.

Sir Wilfrid and His Flute

The late Sir Wilfrid Laurier was intensely fond of music when he was close up to it, and once had quite an intense with an agent who wanted to sell him a phonograph. Sir Wilfrid was skeptical about the instrument, but on being told that it would reproduce his own voice, and being asked to sing into the machine, he volunteered instead to play the flute, on which he was some amateur. When he heard the record, he said: "Do you really mean to tell me that is the way my flute sounded?" "Precisely," Sir Wilfrid. Now let me sell you this machine." "No," was the sorrowful reply. "I think I had better sell the flute."

Minard's Liniment Relieves Neuralgia

Spring Ploughing in British Columbia
Exceptionally favorable weather has been experienced for farming operations throughout February, says a report from Hazelton, British Columbia, and the result is to be seen in the many newly ploughed stretches of land, much of it virgin soil, newly cleared. There is every indication that seeding will be accomplished much earlier all round than was possible last year in this neighborhood.

Dominion's Demands Are Upheld

United States Legal Experts Support Canada's Stand

Henry E. Munro, lecturer on international law at Columbia University, came out in support of Canada's stand in regard to the League of Nations in an address on "The United States and the Peace Treaty," delivered in New York recently. After emphasizing the practical independence of the several parts of the British empire as a compelling cause for their separate representation, Mr. Munro said: "It does not follow that the British Dominion will always support British demands. A striking instance of this was the decision in the Alaska boundary dispute in 1903, when Lord Alverstone, chief justice for England, voted with the American negotiators as against the two Canadians."

"If we trace the rise and development of the so-called United States protectorates in the Caribbean region, we find that the U.S. is possessed of much more authority over Cuba, Haiti, San Domingo, Panama, and Nicaragua than is Great Britain over any of her dominions, and in international conferences of any kind would be likely to have much more influence over their votes than would Great Britain over those of the British Dominions."

Mr. Munro made a strong appeal for ratification of the treaty by the U.S.

Greatest of All Cunning
The greatest of all cunning is to seem blind to the snares which we know are laid for us; men are never so easily deceived as while they are endeavoring to deceive others.—Rochefortscand.

Nine hundred and ninety-seven cutting tools alone are required in manufacturing a modern rifle. The twist drill is one of the busiest of these. To supply 1,000,000 rifles, 94,000,000 holes must be drilled.

Leon Trotsky's Train de Luxe

One of Most Interesting Sightings in a Printing Office

London, England.—A Russian refugee, who recently arrived in Finland gives the following account of the special train used by Leon Trotsky: The train consists of 14 cars and two powerful engines. It is supplied with a wireless installation capable of receiving communications from Nakhim, Lyons and London. As soon as the train arrives at a station it is at once connected with the telephone system. The wireless telegraph works night and day. One of the most interesting fittings of the train is a printing office, which prints Trotsky's paper, On the Way. The greatest curiosity, however, is the train car of the former imperial garage, which contains six motor cars, one of them a French car which belonged to the Czar. The escort on the train consists of 250, that is, a whole company of machine gunners, as Leon Trotsky, with his train, has often been near the front. The train also contains a library and a dining car.

Lift off Corns!

Doesn't hurt a bit and Freezons costs only a few cents.

With our fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezons" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Another View of De Valera

Wished for the Triumph of Armies Against Which We Were Fighting

As far as England was concerned, the Irish people wished and hoped that Germany would win the war.

Thus "President" de Valera, addressing an audience in Germany: No. Austria! No. Bulgaria, then? Not at all. In The Bronx, why assail England from the safe soil of an enemy country when you can assail her from the equally safe soil of an ally? We poured millions of Americans into France. What of it? "President" de Valera tells us that those for whom he speaks wished for the triumph of the armies against whom we were fighting. We denied ourselves that we might send food and ammunition to France. If he could have had his way, not an ounce of it would have reached her shores. Rather it would have gone to feed and arm our foes. And an audience, calling itself American, and presided over by the president of one of the boroughs of New York city, welcomes de Valera, cheers him, hangs upon his words; the aldermen vote him honors, and the mayor bestows upon him the freedom of the city! Is there any answer? Yes! Politics. Do real Americans have any feeling about all this? Yes. Shame—

New York Evening Post.

Under The Bobbevik Regime

British Officers Describe Unpleasant Horrors in Northern Siberia

A party of British officers arriving at Harbin from Omsk and Chita declared that their experiences west of Irkutsk excelled all other previous horrors, says the London Times, Harbin, Manchuria, correspondent in a communication Feb. 19.—Files of naked and frozen bodies of men, women and children were stacked at every station, the correspondent quotes the officer as saying. "The Czecha took the engines from the hospital trains, leaving the sick to perish from cold and hunger."

OUT O' LUCK

Never mind! Just take Cascarets if Bilious, Constipated

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders and sick headaches. But do not stop the sick into activity with harsh cathartics.

What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bow

Allied Fleet Ready to Bring Turkey to Time

Constantinople.—Dispatches from London and Paris announcing that the Supreme Council has decided to take drastic action at Constantinople to prevent the killing of Christians and enforce peace terms more radical than were contemplated before the trouble at Marash, have been received with apparent indifference by the Turks, the only effect being the designation of a slightly changed cabinet.

Turkish officials are watching without any evidence of concern the moves in London to force them out of Europe. And the printing of a dispatch reporting that President Wilson would insist that the "allied navy leave Constantinople unharmed" scarcely a ripple.

The allied naval displays in the Bosphorus, and the British and French naval parades in the streets of Constantinople, are watched indifferently by the public. The Black, Marmora, and Aegean seas are alive with allied warships ready to co-operate with land forces in the defence of the straits and the enforcement of a blockade, should such action be taken.

The British have four battleships of the Iron Duke class, four cruisers of the Cardiff class, six destroyers of the Stord class, two destroyers of the Temehawk class, and five super-dreadnoughts of the Revenge class, within easy reach of the Straits, with several other warships convenient to the Golden Horn or the Bosphorus.

The Italians have two battleships, one cruiser and two destroyers in the vicinity. The French have two modern battleships, two destroyers and one transport. The Greeks the battleship Kilkis (formerly the United States Idaho) and two destroyers, and the United States six destroyers, the cruiser Calverton, and several small craft.

No Pity For Germany

Former Pres. Poincaré Denounces Plans for Seeking Modification of Treaty

Paris.—Former President Poincaré in his first political article in the Revue des Modèles, denounces Germany for her attempt to secure a modification of the Treaty of Versailles. He says the "Anglo-Saxon friends" of France, before being moved to pity at Germany's fate, to look at France's devastated regions and agree that having paid with our blood and our property for victory and the freedom of nations, we have an inalienable and inextinguishable right to recover damages.

The former president sharply criticizes the stand of the Supreme Council with regard to the eastern situation, the Adriatic, the Russian Soviet government and its attitude concerning small nations.

In conclusion, M. Poincaré expresses the wish that "the supreme council will soon sleep its last sleep."

Steel Workers Give Up Strike

Swansea, Wales.—The strike of the Welsh steel workers, which has seriously crippled the industry in Wales for more than a week, has been settled. It has been announced that the agreement had been signed in London for the ending of the strike, the men being advised to return to their work. Seventy thousand men were affected by the walkout, which was initiated to enforce a demand for a 40 per cent increase in pay.

No Further Loans from U.S.

Washington.—The allied governments will receive no further loans from the United States government, Secretary Houston has announced.

Franchise For British Citizens Over Twenty-one

Ottawa.—The new franchise bill, forecasted in the speech from the throne and expected to be one of the most contentious pieces of legislation to be thrown into the arena this session, was introduced into the commons by Hon. Mr. Guthrie.

In introducing the bill, Mr. Guthrie explained that the only requirements would be those of British citizenship, residence in Canada for one year, and in that particular constituency for two months and the attaining of the age of twenty-one years. These requirements would be applicable in the case of male and female voters alike.

The principle adopted in the preparation of voters' lists was that existing provincial lists in any province where authorized by law, for use in provincial elections should be utilized in the case of Dominion elections, provided the lists were not more than

Curzon's Remarks Surprise U.S. Officials

Declare State Department Has Not Been Informed of Decision of Council

Washington.—Surprise was expressed at the state department at the statement of Earl Curzon, placing on the United States the blame for the delay in settling the Turkish question.

"The state department has never been informed of the decision of the supreme council at London, and its opinion has not been asked," said one official.

Members of the American peace delegation at Paris were asked concerning the Turkish settlement last year, but refused to discuss the matter at that time.

France has sent a copy of the Turkish settlement to Ambassador Jusserand for presentation to the American representatives, but it is understood that it has not been received at the state department. It was learned, however, that a statement outlining the United States position had been prepared and would be given to the allied governments as soon as the department had been informed officially of the terms of settlement.

Turks Besiege Armenian Villages

Troops Reported to Have Attacked Several Places in Cilicia

London.—Zeitra Hamit and various other Armenian villages in Cilicia have been besieged by Turkish bands for the last ten days, according to dispatches received from diplomatic sources.

The dispatch says the Armenians thus far have been able to defend themselves.

Zeitra is in the valley of Aleppo, 20 miles northwest of Marash, where the recent Armenian massacres are reported to have occurred.

Cost of Prince's Tour

His Royal Highness Paid Large Part of Expenses Out of Own Pocket

Montreal.—The Montreal Star has the following special cable from London:

The expense account of the Prince of Wales for his recent visit to the United States and Canada, just published, shows the tour cost only \$35,000. The treasury had allowed \$125,000 for the journey. The statement disclosed that the Prince paid no hotel bills for himself, but had to meet the cost of accommodation for a dozen officers and other members of his suite. He also paid for all the wines consumed by his suite. Tips and gifts, ranging from walking sticks to jeweled bracelets, amounted to \$10,000.

Americans Are Villa's Guests

Washington.—Francisco Villa does not want ransom for American citizens whom he captures. In a communication received from him, he explains that his only object is to get a friendly conversation with various representative Americans who cross his path, and the only way he can do this is to capture them. They are merely his "guests," he declared. Five Americans have been captured by Villa in two months, and all have been released.

In the days of King Alfred, England reckoned the hours by the length of time taken to burn a wax candle of certain length.

Capitalists Multiplied Their Fortunes

While Working Men Gave His Miles to the State

London.—There are some interesting contrasts presenting economic conditions available here. Lord Colwyn, chairman of the income tax commission, gave the Manchester chamber of commerce three instances of inflated war fortunes. One man who was worth one million in 1914 had now multiplied it six times. Another man who had three million had multiplied it five or six times. Some allies who came here during the war had capital of about £10,000. They got hold of things the government wanted, and their capital was now half a million pounds. Sir William Pearce, chairman of the committee on taxation of war wealth, told another gathering of a working man who presented the state with his entire war wages savings, amounting to 90 pounds, in recognition of the sacrifices of his fellow countrymen.

Cost of New Parliament Building

Return Tabled in House Shows Considerable Sum Already Expended

Ottawa.—The new parliament building cost \$5,954,116 to February 28 last, according to a return tabled in the house. The contractors are to receive eight per cent on the total cost of the building, dating from February 3, 1916, up to the amount of \$4,000,000, and seven per cent on the cost in excess up to \$1,000,000, it being understood and agreed that they are not to receive anything in excess of the cost of \$5,000,000.

Architects receive five per cent on the total cost of the work of reconstructing the parliament buildings, this commission to apply to the amount not exceeding \$5,000,000.

More Outrages in Ireland

Several Policemen Have Been Attacked, and One Was Shot and Killed

Dublin.—A number of additional outrages are reported to have taken place in various parts of Ireland. Police Sergeant Naser was shot and killed and Constable Doyle was wounded at Rathkeale, 17 miles southwest of Limerick.

In the Cork district, Inspector McDonough was dangerously wounded in the head by a bullet from a revolver while exchanging shots with a crowd which attacked him and another officer. One civilian was badly wounded during the fighting.

At Limerick Constable Murphy was ambushed and shot and dangerously wounded.

At Kibbegan, County West Meath, one hundred armed men raided Durrow Castle, a private residence, for arms. The family was absent and only two servants were in the castle. The raiders gained entrance to the building by smashing the big door with sledge hammers.

Egyptians Favor Freedom

Protest Against Suspension of the Assembly and Denounce the British Protectorate

London.—Fifty-two members of the Egyptian legislative assembly recently met at the house of Said Zagloul Pasha, who headed the Egyptian mission to the peace conference, and adopted a resolution proclaiming the independence of Egypt and the Sudan, according to dispatches from Cairo.

A resolution also protested against the suspension of the assembly, and denounced the British protectorate.

More Canadian Cars in States

Ottawa.—There are at the present time 59,716 Canadian railway cars in the United States, and 40,632 American cars on Canadian lines. It was stated in the House of Commons; thus the balance in favor of the States is approximately 19,000. There are nearly 20,000 more Canadian box cars in the States than there are American cars in Canada.

Cost of Completion of Manitoba House

Winnipeg.—It will cost \$8,075,418 to complete the parliament buildings in Winnipeg, according to figures given the legislature of Manitoba by Hon. H. A. Grierson, minister of public works. The return sets out that the board of appraisal awarded \$1,207,351 against Thomas Kelly and Sons, the original contractors.

Hope to Beat R-34

New York.—Word comes from Philadelphia that the United States navy is to build the biggest and fastest dirigible in the world. This ship, it is said, is to surpass in size and power the R-34, the British dirigible which flew from England to New York and back last summer.

Paris.—Members of the allied military commission at Breslau were attacked by a mob, but were saved from injury by intervention of the police. The allied representatives were booed and some stones were thrown by the crowd before it could be dispersed.

W. N. U. 1307

Members of League May Disband Troops

Denmark Raises Question of Need for Standing Armies

Copenhagen.—Whether joining the League of Nations is synonymous with the duty of keeping up a standing army to be placed at the disposal of the league to enforce the league's decisions has been for a long time a burning question in Denmark and Norway. The democratic majority against the protest of Conservatives in both countries, read the treaty as giving a member of the league full right to abolish its army and navy.

Lord Robert Cecil, the British representative of the league, in reply to an inquiry by the president of the Norwegian Storting, says: "I have no doubt that your reading of Article 8 of the treaty is right. Undoubtedly it was never meant to put on any member of the league the burden and duty to keep up military forces."

Assault on French Commission

Eight Men Drove Into Town Near Potsdam and Were Attacked by Inhabitants

Berlin.—Eight men, said to be members of a French aviation commission, who drove into Weritz, near Potsdam, in a motor car from Berlin, were attacked by the inhabitants, who accused the men of peaching and summoned them to surrender. Four of the men obeyed, but the others tried to escape, one of them being wounded and later dying while being taken to a doctor. Two of the others later surrendered, and the fourth man escaped. The report on the incident has been transmitted to the French charge d'affaires here by an allied officer.

Ex-Kaiser Supports Von Hindenburg

Field Marshal Would Not Accept Candidature for the Presidency Without Consent

Berlin.—The Deutsche Zeitung reports that when the German Nationalists offered Von Hindenburg the candidature of the German presidency, the field marshal asked for time to consult the former emperor, to whom he had sworn allegiance, according to a dispatch to the London Times.

As Von Hindenburg has since accepted the candidature, adds the dispatch, it is quite evident that the ex-kaiser's opinion still carries weight in the Reich's political opinions.

Getting Control of Turkey

No Changes Made in General Plan of Action

London.—The peace conference is trying to work out the details of military and naval plans in connection with Turkey, giving particular attention to Armenia. Admiral Beatty, Winston Spencer Churchill, secretary of war, and others, were called on to give their opinions. Premier Venizelos of Greece was also present, and again insisted that the allies should take the sternest measures against the Sultan.

The general plan of action was not changed, however, as a result of the conference. It became known that the military demonstration at Constantinople is likely to take the form of allied military control of certain Turkish governmental activities, among them probably the war department.

The conferees were careful to make clear that this does not mean the taking over of the Turkish government at the outset, and would not in the future if Turkey shows an inclination to abide by the terms of the armistice and cease massacres.

Wonders of Wireless

New Receiving Device Enabled People in Streets to Hear Discussion in Airplane

New York.—Conversation by wireless telephone between passengers in a biplane and a motor truck stationed at Broadway and 42nd street, during an exhibition over the city, was heard by persons standing around the truck at a distance of ten to fifteen feet. Hearing the voices from the occupants of the car attached to the gas-bag, was possible, it was explained, through a recently devised receiving apparatus.

Plans to Carry Silver Ore

Vancouver, B.C.—The Granby Mining company has decided to experiment with airplanes to carry very valuable silver ore from an interior mine to tidewater at Stewart, in northern British Columbia. Lieut. Ernest Hall, of Vancouver, and Hubbard, of Seattle, have been engaged and will go north with these aircraft in April. The planes will be of the flying boat type, and will operate between the lake and the seashore, twelve miles. The cars will carry 1,000 pounds per trip.

A mouse trap patented by a Mississippi inventor consists of a board to be clamped to a table in such a way that the weight of a rodent lifts it and drops the animal into water, then swings back into place.

Drury Government to Enforce Prohibition

Premier Assures Temperance Party That Act Will Be Made Effective

Toronto.—"It is our sincere desire to make the Ontario Temperance Act effective, and to enforce it in such a way that there will be no reaction, for we must not jeopardize the permanent cause of temperance in the province. We are as anxious as you to make the act effective, and we will move to that end as swiftly as possible, but with due deliberation."

Such was the assurance given by Premier Drury to a deputation of some 250 delegates from the Dominion alliance convention.

The Ontario branch of the alliance in convention unanimously decided that legal difficulties must be removed before it will ask for a provincial plebiscite.

Red Flags at Pit Shafts

Strike at Mahrish Ostrau Coal Fields Becomes Communist Demonstration

Vienna.—The strike which broke out recently in the Mahrish Ostrau coalfield in the Teschen district, in dispute between Czech-Slovakia and Poland, is spreading rapidly, and the movement is reported to be taking on the character of a Communist or Spartacist demonstration.

Red flags are flying at the pit shafts, the advice state, and hand grenades have been used in conflicts occurring between Polish and Czech workers. A total of 26,000 men have struck.

The strike was begun as a protest against the action of the plebiscite commission in replacing workmen members of the local committee by bourgeois.

Reds Active in Canada

Secret Service Police Are Investigating Clues of Activities Now in Hand

Ottawa.—The Journal publishes a report to the effect that the Dominion secret service police are investigating "Red" activities, evidence of which have been found in Ottawa. It is alleged that the suspicion of the authorities was first aroused by the visit of a stranger to the house of Rev. George Bousfield, a prominent Anglican clergyman of this city. The report is that the stranger visited the rector to secure his co-operation in a scheme which had as its object the removal of a prominent Canadian.

Mr. Bousfield was ill at the time, and the stranger refused to wait until further information could be secured. Any information with regard to the other clues on which the Dominion authorities are working have been kept secret, although it is known that there has been some activity regarding the circulation of incendiary literature.

Von Hindenburg Again

Germany's Chief Military Training School Is Closed

Berlin.—The chief training school for cadets at Grosslichterfelde, Prussia, through which most of the officers of the German army passed, was closed, in accordance with the terms of the peace treaty.

There was an imposing military demonstration, attended by a number of officers in gala uniform, including Gen. Ludendorff.

Field Marshal Von Hindenburg telegraphed to the cadets that the services they had rendered the country would never be forgotten.

Reorganization of Canadian Militia

Ottawa.—Perpetuation of the overseas battalions, which Canada contributed to the forces in the field during the war, is provided for in the reorganization of the infantry of the Canadian Militia, according to a statement issued from militia headquarters. The statement precedes an announcement of reorganization in three of the military districts of Canada: No. 3 district, with Kingston as its headquarters; No. 10, with headquarters at Winnipeg; and No. 11, with headquarters at Vancouver.

Late Opening of Navigation

Montreal.—Forecasts are that there will be late opening of navigation on the St. Lawrence this year, in view of existing conditions. The government ice breaker, Lady Grey, is 35 miles below Quebec, and her captain reports ice fifteen inches thick, in addition to about ten feet of frazil, which is unusually thick for this time of the year.

Last year the St. Lawrence was opened on April 14, which was the earliest for six years.

Condemns Attacks

Berlin.—The German imperial government has issued a proclamation signed by Premier Bauer, condemning attacks on members of entente missions. It declares that the minister of defence will act with the greatest severity in punishing excesses.

Prince Commander of R.C.M.P.

London.—The Prince of Wales, it is understood has accepted a position as honorary commandant of the Canadian Mounted Police.

Germany Asks Allies to Forget Crimes of War

Allies Demand Application of Penalty

Send Firmly Worded Note to Germany Regarding Outrages on Officers

Paris.—The conference of ambassadors has decided to send the German government a very firmly worded note demanding immediate application of the penalties pronounced for the outrages suffered by officers of the allied commission to the Baltic states during the German evacuation of this region, which has hitherto been delayed.

At the demand of the British delegation, the conference has decided to demand again that the government at Belgrade order the evacuation of Radkersburg, 37 miles southeast of Graz, which is still occupied by the Jugo-Slavs, contrary to the decisions of the conference.

The conference has sent precise instructions to the commissions of control in Germany that the German government has contested their right to visit fortresses which are not to be destroyed. The control commissions were meant to have the right to visit all German fortified places.

Wanted to Keep Fleet Intact

Sims Told That Navy Was to Be Kept Whole for Future Requirement

Washington.—Indications that the United States navy department withheld sending all available American naval craft to European waters early in the war because of a desire to keep the main body of that nation's sea strength intact for possible eventualities were contained in Admiral Sims' testimony before the senate committee investigating the naval conduct of the war.

He read a cablegram from the navy department dated July 10, 1917, containing an outline of the department's policy and declaring that "while a successful termination of the present war must always be the first allied aim and will probably result in diminished tension throughout the world, the future position of the United States must in no way be jeopardized by any disintegration of our main fighting fleet."

The same cablegram, Admiral Sims said, contained this statement: "The navy department announces as its general plan of action the following: Its willingness to send its minor fighting forces in any number not incompatible with home needs to another field of action deemed advisable by the allied admiralty council; its unwillingness as a matter of policy to separate any division from the main fleet for service abroad, although it is willing to send the entire battleship fleet abroad to act as a united but co-operating unit when the emergency is deemed sufficient to warrant it."

Smuts Wins in South Africa

London.—In the South African elections it is understood that the Nationalists shirked the Republican issue. A forecast of the result gives the South African party 48 seats, the Unionists 34, the Nationalists 40, and Labor 12. The present position of the parties in the South African parliament is: South Africans 52, Unionists 38, Nationalists 27, Labor 5, Independent 6, vacant 2.

War Expenditure Still High

Ottawa.—War expenditures borne by Canada during January last totalled \$43,800,000, of which sum \$15,305,904 was spent in mobilization, it was shown before the house. The total increase of debt for the month was \$62,015,109.

Canada Takes No Second Place In League of Nations

The Turkish Problem

Earl Curzon Blames the United States for Delay

London.—Blame for the troubles that are being experienced in settling the Turkish problem were laid at the door of the United States by Earl Curzon, the Foreign Secretary, in explaining the peace conference negotiations to the House of Lords.

"The difficulty in framing the treaty is largely due to delay, and America is responsible for the delay," Lord Curzon said.

The Foreign Secretary added that the peace conference hoped that in Asia Minor, however, that the United States would help materially in assisting the new Armenia.

Berlin.—The German charge d'affaires in London has handed to Premier Lloyd George a note regarding the entente extradition list, it was announced here.

After asserting that the imperial court will be guided only by justice and will conduct an impartial inquiry, the note demands that the arrest of Germans in the occupied territories on charges similar to those enumerated in the extradition list shall cease, and that those arrested shall be delivered to German courts.

The release of Germans who for similar reasons have been detained in war prison camps also is asked for. The note finally demands that the allies abandon the reservations regarding their right to try for crimes committed during the war any Germans not mentioned in the list if encountered on allied territory, saying that incidents arising from the war should be consigned to oblivion with the advent of peace.

Otherwise, the note says, a restoration of normal relations between the different nationalities is hardly conceivable and that the German government on its part will be obliged to take measures with a view to the expiation of the punishable acts committed during the war against Germans by allied subjects.

Land Set Aside for Settlers

Annual Report of Department of the Interior Tabled in House of Commons

Ottawa.—Enough agricultural land for settlers likely to come to Canada for some years to come is now available, according to the annual report of the department of the interior, tabled in the House of Commons.

Particularly in Northern Alberta have the government surveys been active. The amount of land near to the railways is, however, fast diminishing.

Returned soldiers have been well provided for in the matter of accessible land, large tracts being reserved for their use. There has been considerable activity by bona fide settlers outside these reserved areas. The government, it is stated, is planning to continue irrigation and drainage work on an extensive scale.

Particular attention is also to be paid by the department in the coming year to the development of water power.

Revenue collected from occupiers of homesteads has been very satisfactory during the year.

Premier Improved in Health

Tells Followers That He Hopes to Be Back in Ottawa in Eight Weeks

Ottawa.—Sir Robert Borden has telegraphed to inform his followers in the house that he is making steady and encouraging progress toward recovery, and expects to be in the capital within seven or eight weeks. The message was in answer to that sent by the caucus a few days ago.

It was addressed to Sir George Foster and reads as follows:

"Pray convey to caucus my grateful thanks for their very kind message, which I most deeply appreciate. I am making steady and encouraging progress, and hope to rejoin them at the date already indicated."

Big Gun Reported in Dublin

Ottawa.—A special cable to the Montreal Star from London says:

"The Irish correspondent of the Daily Graphic telegraphs that big guns are arriving in Dublin and that the streets are being patrolled by armored cars."

"Excitement is reported to be running high."

Governor Harding Federal Reserve Board

The Canadian Club said: "Work and Save is the great remedy for the High Cost of Living."

The advantages of a Savings Account are apparent to most persons, but have you experienced the convenience of a Joint Account? Any of our 880 Branch Managers will give you the particulars.

Donations will be gladly received of Plain or Fancy Sewing, Home-made cooking, and candy. Send your gifts to the Fairpage. This will be the Best yet.

Wall paper, Floor Paint, Mureco, for spring cleaning. Lacombe Furniture Store.

Now that some of them have decided that they won the war, our American cousins are raising the dickens with Pershing because they think the cut of his pan-no, we mean trousers is too British looking. The question of Pershing's trousers and swaggy stick took up the time of the senators at Washington for a couple of hours last week.

This is not bad. It will be remembered when Pershing first landed in France, (about the end of the great war) the American papers made a great display of his visit to the tomb of Lafayette, and told of Pershing taking off his cap and dramatically exclaiming "Lafayette, we are here." The Eye-Opener says that the American papers suppressed the sequel. According to Bob, after Pershing had uttered the words "we are here", Lafayette turned over in his grave twice and hollered back, "Well, where in H— have you been for the past three years."

Will Erect Modern Store Building

Mr. A. M. Campbell, has completed arrangements for the erection of a modern store building on the site of his present store on the corner of Barnett Avenue and Nanton Street. The workmen started this morning to move off the old buildings from the lot, and building operations will commence immediately.

The store will be of solid brick construction, 90 feet frontage on Barnett Ave., with a depth of 110 feet to the lane on Nanton St., and will be fully modern. There will be a complete water system, throughout the building, connected with septic tank; lavatories and a rest room for ladies and children. There will be a full size basement of concrete. The plan shows a well designed front, which will add greatly to the appearance of our main street. The present building is back from the street line about five feet, but the new building will be built up to the line and at sidewalk level.

The new store will be laid out as follows: The hardware department will be located where the grocery department is at present, and the grocery stock will be placed in the present dry goods department. The dry goods, boots and shoes, etc., will occupy the new addition which will be an ideal show room. It will be built in what is known in the cities as the "balcony style," and fixtures will be of the latest model. The second floor of the building will be laid out for millinery dressmaking and other show rooms.

Morningside
A very pleasant time was held at Mr. and J. W. Mrs. Wilts's last Wednesday evening, when about fifty of their friends and neighbors assembled to bid them farewell before leaving for their new home in Lacombe. After an hour of social, Mrs. Sutherland was called upon to read the following address, and Mrs. Murdoch and Mrs. Clemens presented them with a library table. "Dear Mr. and Mrs. Wilts, Your Morningside friends have heard with regret, that you are shortly to leave us. During the six years you have been with us we have learned to esteem you highly. You have always been ready to help in every worthy work. Your contributions to the church and social life has been much appreciated. In many ways, you will be greatly missed. Under the circumstances we could not allow you to leave us without some expression of our esteem and good will. We wish you to accept this table in the hope that it will occasionally remind you of the friends left behind. Our best wishes go with you, your family, and the grandmas to your new home." Mr. and Mrs. Wilts made very fitting replies. Several short speeches were made, all speaking in the highest terms of the friends who are about to leave us.

Refreshments were served about midnight, and then the young people danced for a couple of hours. Music was furnished by Jack Pennington, and the Sweet Bros.

Chiropractors to Get Fair Play

A bill which will directly affect the practice of Chiropractic, and in fact all healing arts, in the province was introduced in the legislature for first reading Monday afternoon, by the Hon. A. G. McKay, minister of health. This measure is an amendment to the medical profession act, and is along the lines suggested by both the Premier and Mr. McKay when the Chiropractic bill was voted down for second reading.

Under this amendment to the medical profession act all cults and exponents of healing art will be able to practice their art or profession in the province, providing they can qualify and pass the necessary examinations. The senate of the university will have full power under this measure to fix the examinations, it being required by the government that there shall be a general test of each candidate as to the knowledge to diagnose disease, after which an examination in the special subject desired may be given. Thus a chiropractor would have to pass a general examination on the ability to diagnose disease then, if successful, would take the special Chiropractic test. By passing these examinations the candidate would be duly qualified and accordingly licensed to practice in the province irrespective of any association or organization.

The bill when passed will protect the public from quackery, and will ensure patients that the parties practicing any healing profession is competent to do so.

Dr. Saunders Early Red Fyfe For Sale

JOHN McKENTY

HELPLESS WITH RHEUMATISM

Until He Took "Fruit-a-lives"
The Fruit Medicine

R. R. No. 1, Lorne, Ont.
"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried 'Fruit-a-lives'. Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".
ALEXANDER MUNRO.

Box, 6 for \$2.00, trial size 25c. As all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

Government Clyde Stallion

Parties wishing to breed mare to the Clydesdale stallion purchased by the Alberta Department of Agriculture, "Cragie Masterpiece" 18297, during the season of 1929, will make application to S. G. Carlyle, Live Stock Commissioner, Department of Agriculture, Edmonton, giving name and registration number of mare. A fee of \$25.00 will be payable at time of service and a further fee to be fixed by the Clydesdale Committee and the Live Stock Commissioner, will be payable when mare proves to be in foal.

The location of the horse in the province will also be decided by the committee and arrangements will be made that the service fees in every case will cover the freight so as to equalize the cost to parties residing in different part of the province. Further particulars will be published shortly, but parties desiring to breed mares should make application at once. The stallion will likely be ready to begin the season about May 1st. The Committee and Livestock Commissioner reserve the right to revise the list of applications and make such rules and regulations as may be deemed necessary regarding the services of this stallion.

S. G. CARLYLE,
Live Stock Commissioner, M18-2c.

Canada's Financial Condition

Problem is One Which Should Cause Us to Exercise All Economy
Commenting on a statement made by Professor Cudmore a few days ago that Canada's financial condition is such that were she a private concern she would be declared bankrupt, Sir Edmund Walker, president of the Canadian Bank of Commerce, says that "the weight of our national debt is of course not the total amount, but the annual amortization, and our problem is to distribute this in systems of taxation, which will not result in checking production. That we can do this there is no doubt. The debt that has always, and will hereafter trouble us is that owing by the Dominion Government and other borrowers to foreign countries, costing us nearly \$200,000,000 per annum. For it we must find actual products to add to what is necessary for our own comfort, and in excess of our imports. This is the real problem, and it is one which should cause us to exercise all the economy that Professor Cudmore suggests."

Fined for Letting Sheep Drown
Summoned under the food control regulations for wasting foodstuffs by "failing to take steps for the preservation of a flock of sheep," John Wadland, an Exeter, England, farmer, was fined £50 and costs. The prosecution said that through the farmer failing to take steps for their rescue, 31 sheep were drowned during the recent floods of the River Exe at Bramford, Devon. The defending solicitor said it would be absurd to suppose that Wadland would be willing to lose animals worth £250.

Amsterdam has the largest diamond-cutting trade in the world.

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my personal endorsement to publish this letter."—Miss Flo Kelly, 478 St. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

C. P. R. Give Out A Big Order

C.P.R. Ordering \$15,000,000 Worth of Equipment

The Canadian Pacific Railway has given out equipment orders totalling roughly \$15,000,000. These orders call for: Freight equipment; 2,500 60-ton box cars; 500 refrigerators; 300 automobile cars; 67 ore cars. Passenger equipment, 12 dining cars, 53 sleepers, 13 compartment cars, 24 baggage cars. The company will be able to cancel a considerable portion of the orders, while the Canadian Car and Foundry Co., Ltd., will get a large part of the total.

One Great Essential To A Woman's Health Is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and wretched. But how can any woman be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their social and household duties than they do to their health. It is a wonder then that they become irritable and nervous, have hot flashes, faint and dizzy spells, smothering and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Millburn's Heart and Nerve Pills are the very remedy that nerves, tired-out, weary women need to restore them to the blessings of good health. Mrs. P. H. Ryan, Sand Point, N.S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night and my appetite was very poor. I could not walk across the floor without trembling. I had hot flashes and fainting spells. When I was on my second box of Millburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes, when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50c a box at all dealers or mailed direct on receipt of price by The J. Millburn Co., Limited, Toronto, Ont.

GIRLS! A MASS OF WAVY, GLEAMY BEAUTIFUL HAIR
Let "Danderine" save and glorify your hair

She Wondered
A girl once sang a song where she asked, in the first line of the chorus: "I wonder if he'll miss me?" and she sang it with more force than expression or sweetness; in fact she was slightly off key. As she sang the first verse there was a restless shuffling of feet, while the chorus brought out a buzz of voices. The second verse did not add to the enjoyment of the song, but increased the noise. She reached the chorus in safety, and once more noisily inquired: "I wonder if he'll miss me?" When from the gallery came the response: "If he does he never ought to be trusted with a gun again."

Ontario Seeking Prairie Horses
There is a real market in Ontario for the undersized horses of the Alberta ranches, according to Walter Harland Smith, manager of the horse department of the Union Stockyards, Toronto, who is in the West looking into a possible supply. It is the horse under 1,200 pounds, which is so common on the plains of this province and which is so undesirable from a breeding standpoint, that is wanted.

It is estimated that Ireland's peat logs contain the equivalent of 5,000,000,000 tons of coal.

A man should pardon everybody's fault rather than his own. —Cato.

A piece of sugar cut in the dark will emit a faint light.

Merrick-Anderson Buy

Have Acquired New Warehouse in Order to Accommodate Growing Business

Mr. George Merrick, vice-president and general manager of the Merrick Anderson Company, Winnipeg, stated to The Commercial that his company had completed the purchase of the warehouse just west of the present building of the company on Bannatyne avenue east. Mr. Merrick said that the company had been working for some time under trying conditions for want of space. The acquisition of the new building will enable the company to give better service, carrying a larger stock and getting goods out promptly. The amount of space available for the hardware business under the new conditions is practically doubled.

Announcement was made some time ago that this firm might build in 1920, but owing to pressure of business was impossible to wait. Possession of the new building will be obtained almost immediately.

This is perhaps the most important announcement this progressive firm has made since they adopted the "Jubilee" brand as their trade mark several years ago.

Greater space is now acquired, which means that they can now carry a larger stock, and it will enable them to give better service.

According to a reliable survey made several years ago, the robin and the English sparrow are the most abundant of all birds.

New Creameries For Saskatchewan

Saskatchewan Co-operative Creameries, Ltd., Branching Out

The Saskatchewan Co-operative Creameries, Limited, have let tenders for the erection of a modern creamery and cold storage plant at Melville. During the present year other co-operative creameries and cold storage plants will probably be established at Yorkton and Weyburn, and creameries at Kelijer, Invermay, Kelvington, Spruce Lake and other points in the province. Preliminary steps have already been taken for the establishing of these creameries. At Yorkton arrangements are now being made to secure a suitable site. At Weyburn a campaign is being conducted for the sale of stock among the farmers in the district, and it is expected that a modern creamery and cold storage plant will be erected there during the summer. At Melville a new creamery and cold storage plant is nearing completion, and will be ready for occupation during the next few weeks.

The Saskatchewan Co-operative Creameries, Limited, is a farmers' company, carrying on a general farm produce business in Saskatchewan. The company owns and operates creameries and cold storage plants at Regina, Saskatoon, North Battleford and Vonda. Last year 3,325,000 pounds of butter were manufactured in these creameries. They also sold 1,750,000 quarts of milk and made and sold 480,000 quarts of ice cream. Furthermore, several carloads of eggs and poultry were handled, the total business in these farm products amounting to \$2,500,000.

WHEN YOU SUFFER FROM RHEUMATISM

Almost any man will tell you that Sloan's Liniment means relief

For practically every man has used it who has suffered from rheumatic aches, soreness of muscles, stiffness of joints, the result of weather or women, too, by the hundreds of thousands, use it for relieving neuritis, lame backs, neuralgia, sick headache, Clean, refreshing, soothing, economical, quickly effective. Say "Sloan's Liniment" to your druggist. Get it today. 35c, 70c, \$1.40. Made in Canada.

France Needs More Shipping

Outcry Being Made Concerning Allotment of German Shipping

A bitter outcry is being made in France concerning the lack of shipping and the allotment of the German vessels, Alexander Millerand, the Premier, being urged to make strong representations to the allied council. France, it is declared, is hopelessly crippled, having lost, roughly, 1,000,000 tons out of her 2,500,000. She received provisionally 500,000 tons of German vessels, and it is now found that owing to the action of the allies in taking out of the pool for distribution the German ships seized in the allied ports, this 500,000 tons is nearly twice too much, and France has been asked to hand some of them back.

Whether, however, through an agreement between Mr. Lloyd George and Mr. Wilson or not, the United States, which lost 354,500 tons, seized 620,000, refusing to return them to the pool. Brazil lost 25,000 and is keeping 200,000, England is keeping 611,000, Italy 150,000, while France only acquires in this way the direct capture of 40,000. She demands fair distribution, especially as she agreed to devote her energies not to shipbuilding, which Great Britain agreed to do, but to munition-making, during the war.

Without ships France becomes the vassal of Great Britain, it is said, dependent upon her for the transport of coal and foodstuffs. Unfair pressure, it is claimed, has been brought to this, according to the French cry of alarm, is a matter to be seriously discussed in London.

Record Price for Property in 'Peg'
A site on the busiest portion of portage avenue, Winnipeg, was sold a few days ago at a price which is a record one for business places in this city. This is the Kennedy block, with a frontage of 54 feet and a depth of 130 feet, containing a structure of three stories erected in 1906. The price realized was \$257,000, approximately \$5,000 a foot frontage.

The United States, Great Britain and all Europe except Russia could be put into Siberia.

Colorado has 1,733 physicians.

Proposed Dairy School For Alberta

Branch of the Farming System Which Can Be Developed To Success

At the Alberta Dairyman's convention at Edmonton a resolution was passed asking that the Provincial University be given funds with which to provide facilities for training butter-makers and dairymen. Consenting editorially to this resolution, the Edmonton Bulletin says: "The request is not in the nature of a proposal that an experiment be tried, but that means be provided for developing a branch of the farming business which it has been shown can be developed to success. The province already holds the leading position in the Dominion as the source of butter of the finest quality. To increase the quantity while maintaining that high standard of quality is an objective the attainment of which should engage the hearty co-operation of government, legislative and educational authorities. And whether or not that can be done depends upon whether or not men are trained to the business. A dairy school would be in the nature of an assured investment."

LOSS OF STRENGTH THROUGH INDIGESTION

The Stomach Can Only Do Its Work When the Blood Is Rich and Red

Indigestion means loss as well as suffering to many people. Loss of strength, loss of time and loss of money follow indigestion, and debility continues as long as the indigestion remains. Workers suffer from indigestion because their hours are long, and often they cannot give proper time to meals. Then the appetite becomes feeble, digestion becomes feeble and the blood becomes impoverished. So the general health suffers; languor, nervous troubles and often sleeplessness follows. It is well to remember that the whole system relies upon good blood and that good blood is impossible unless the digestion is good.

The stomach cannot do its work unless the blood is made rich and red, and so new blood alone can cure indigestion. It is for this reason that a remedy like Dr. Williams' Pink Pills, which makes new, rich blood, cures indigestion and builds up the whole system. The great value of Dr. Williams' Pink Pills in cases of this kind is proven by the statement of Mr. R. E. Small, Wingham, Ont., who says: "The truthfulness of my statement can be proven by scores of my friends and acquaintances. I am a glove cutter by trade, and for six long years have at times been a great sufferer from indigestion. It chiefly due to indigestion. Gas would accumulate on the stomach, causing me great pain. I would bloat at times, and almost suffocate, and often when at work would be overcome by a drowsy oppression which was almost insupportable. Finally I began the use of Dr. Williams' Pink Pills, and after taking seven boxes I feel like a new man. The transformation made in me is simply remarkable, and while using them I gained thirteen pounds in weight. I may add that I began the use of Dr. Williams' Pink Pills as a result of what they did for a niece, who underwent a critical operation, and who did not regain her strength until she started using the pills. In her case they fully restored her health, and this encouraged me to begin their use, with, as I have already said, a complete restoration of health in my own case."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

Radicals and Producers

The Red Is Usually the Man Who Lets the Other Fellow Do the Work

I have no record of any member of any of the more radical groups raising his food for himself. Believers in "direct action" with regard to a man's accumulated stocks and organized institutions, they take no direct action with respect to nature. Assuming some credit for courage in calling a spade a spade, they do not often use one. Much as he attacks capital, your radical reformer is always found where capital is. He takes his place in the great city or at a mine. He does not appear on the farms. It is a mistake to say that the Bolsheviks took Russia and Hungary. The Bolsheviks took Petrograd and Budapest, and held them just as long as the country behind could or would provide food. Your American Bolshevik lives in New York, Chicago, or some other large city. He is as likely as not to belong to the leisure classes, whose income was long ago guaranteed, or to be an artist or a poet to whom "society owes a living." —Thomas H. Dickinson, in The Review.

Post Office Finances
The report of the Postmaster-General, which was tabled in the Commons, shows a net revenue for the fiscal year 1918-1919 of \$21,602,712, an increase of \$257,318, as against an expenditure of \$19,273,583, an increase of \$1,227,036. The surplus of revenue for the fiscal year over expenditure was \$2,329,128.

The gimlet screw, which was the idea of a little girl, brought millions of dollars to its inventor.

FARMERS BREED PERCHERONS
The only breed of draft horses ever shipped back to England from Canada for breeding purposes were Percherons. The greatest breed of draft horses in North America are Percherons. The safest investment in draft horses today is Percherons. A profit to own—A pleasure to handle. You will make no mistake in your horse breeding this year if you use a Percheron sire.

WRITE FOR INFORMATION AND LITERATURE
Let us put you in touch with the best Canadian Percheron Breeder. Mention this paper when writing.

The Canadian Percheron Horsebreeders' Association
William A. Wilson, Secretary (Dist. A.), Calgary, Alberta

BAR U AND NAMAKA FARM PERCHERONS
The largest stock of the Percheron breed in the world. The first Percheron breeding farm established in Canada. The only firm on the American continent from which British horsemen have selected Percheron breeding stock to establish studs in Britain.

Do not let the British breeders come to Canada and carry off all our best draft stock. Do not be deceived with the cheap call millions brought in by irresponsible dealers and shoddy peddlers from the United States, when you can buy the best individual of the best breeding raised right here in Alberta for much less than those from the breeding business for 25 years, and expect to remain in the business. We have several-year-old Percheron stallions of our own breeding house on hand to select from. Let our men drive and demonstrate, and if you cannot choose one from the lot to suit you we will give you every assistance in our power. Write for prices or come to Calgary, Alberta, and we will meet you and show you the stock at any time—address:

GEORGE LANE (Dist. B.), CALGARY, ALBERTA

Saskatchewan's New Terminal Elevator

2,000,000 Bushel Addition to Terminal Elevator

Contrary to a widespread impression, which has even found its way into trade journals, there remains only the application of a coat of finish to the 2,000,000 bushel addition to the Saskatchewan Co-operative Elevator Company's terminal elevator at Port Arthur to put it into final shape, according to James Robinson, executive director of the company. This addition gives the company's lakehead plant a total storage capacity of 4,500,000 bushels, and makes it indeed "one of the biggest things in Saskatchewan."

At the last session of the Saskatchewan legislature an amendment was passed to the act incorporating the Saskatchewan Elevator Company, Ltd., enabling the government to loan the company sufficient money to complete its extensions at the head of the lakes. It was stated at the time the bill was before the house that this would be in the neighborhood of \$1,000,000. This money was not intended to cover the cost of work still to be done, but to cover work on the 2,000,000 bushel addition then already nearing completion, and now practically finished.

Hire Canadian Airmen

Chinese Government Employing Aviators to Teach Chinese Students

Ten Canadian aviators are being hired at \$1,000 per month each by the Chinese government to teach Chinese students. Two Vancouver boys who will be in the party have received papers for their signatures to enter the service of the Chinese, who have purchased a number of Vicker planes. The Canadian party expects to leave Vancouver in May for Peking.

University of Alberta Building Extension

Contract has been awarded by the provincial government for the erection of a new medical building in connection with the University of Alberta. The cost of the structure will be about three quarters of a million dollars.

The contractors propose to begin work on the new building right away. It will be similar to the arts building at the University.

Minard's Liniment for sale everywhere.

Grain Inspector at Calgary Busy
An enormous quantity of grain is pouring into Calgary, Alberta, from country points and a record number of cars containing wheat, oats and barley are being inspected by the government grain inspector. On March 2nd they totalled 185.

Old Age Deferred

BY DR. LEE H. SMITH.

Business men who must speed up the works and make business boom during these days—after the war—must recognize the necessity of keeping fit. When mind is befogged, when you have dull headaches or feel lousy, when not "up to snuff," keep the bowels free with a mild laxative. In the morning take a tepid sponge bath (cold water may be used if it does not chill), follow with a brisk rub down; a sufficient "setting up" exercise in good air until you are in a warm glow. Have you tried it lately?

Don't let the poisons accumulate in the intestines either, but try a dose of castor oil the first thing on arising, or a pleasant laxative occasionally, such as one made up of May-apple, aloin and jalap, rolled into a tiny sugar-coated pill, and sold in every drug store as Dr. Pierce's Pleasant Pellets. Then a cup of hot water before breakfast, and you'll feel better than a king! If you continue in life thus, you can pass a Life Insurance examination at sixty.

If you wish to prevent old age coming on too soon, or if you want to increase your chances for a long life, you should drink plenty of soft (rain) or distilled water daily between meals. Then procure at the drug store Dr. Pierce's Auric (anti-uric-acid). This "Auric" drives the uric acid out and relieves backache and rheumatism, as well as kidney trouble. Auric dissolves uric acid as hot tea dissolves sugar.

Size 63 x 81—Heavy honey comb weave in blue and white fast colored cotton yarns.

New Viole Waists

A grand display of the newest styles for spring. Good values from \$3.50 to \$5.00 each.

The United States Didn't Do It All

The outrageous articles of defamation of Great Britain, which have appeared in the Hearst newspapers in the United States are not regarded abroad as representative of American opinion. But the slander and malice of the Hearst journals do incalculable harm none the less.

When a man so high in opinion of people of the world over as Herbert Hoover recently gave Europe the curt advice to go to work and intimidated that further grants and loans from America need not be looked for, importance was attached to the statement. It was very different from the reviling in which Hearst has been indulging. Yet it played into his hands.

Sir Leo Chiozzi Money M. P., in the London Observer has replied to Mr. Hoover. Europe, he says, cannot quite go back to work in the old way, because 8,000,000 of her former workers are dead, and twice that number have been maimed to a degree which seriously impairs their working power. It is estimated that the total man power loss equals the force necessary for the maintenance of eighty million people. Europe is contending with this vast handicap.

It would be a great pity if Americans should come to believe that in point of finance their contribution to the cause in which they eventually joined had been overwhelmingly greater than that of Britain. Sir Chiozzi Money gives the actual figures. The United States has lent:

To Britain	860 million pounds
To France	560 million pounds
To Italy	324 million pounds
To Russia	38 million pounds
To Belgium	68 million pounds
To Serbia	6 million pounds
To other Allies	24 million pounds

Total	1,880 million pounds
Great Britain has lent:	
To France	434 million pounds
To Italy	412 million pounds
To Russia	568 million pounds
To Belgium	87 million pounds
To Serbia	19 million pounds
To other Allies	249 million pounds

The American and British external loans are of very much the same magnitude, but America has much better security, her largest loan being to Britain, who borrowed in order to increase her loans to her allies. Britain's heaviest loans are to Russia, and may be irrecoverable, but had these loans not been made, France would have been overwhelmed in the early stages of the war. The facts need to be fully understood.

"Europe" this writer proceeds, "stands where she does today as a consequence of more than fifty one months of warfare, into which America entered in the thirty-third month, but was, in the nature of the case, unable to contribute little save loans until the final scenes of the campaign." In the war some of the allies had little but their lives to give and gave them, thereby crippling themselves for a generation. The others who have coal, iron, wealth must stand by them and see them through. "Let it not be written," concludes Sir Leo Chiozzi Money, "that America, having come in almost too late, went out too early."

No, gentle reader, the Great United States did not do it all in the late war. We will, however, admit that near the finish, they helped some.

Red Deer Scared Out

The Red Deer Hockey team, were supposed to play a game here on Friday night last, but failed to put in an appearance. They told the manager

of the Lacombe team that they would sure be here. On Friday morning they said that "owing to lack of practice they would be unable to play." That is a very poor excuse, but a poor excuse is better than none in some cases.

This is the fourth time Red Deer has pulled off this kind of a stunt, and has set the Lacombe Hockey Club back the price of the bills and advertising each time. The Red Deer team knows very well, that they would get beaten down here, and that is the very reason they do not appear. They have been playing with Lacombe for some seventeen years now, and now that they have been fortunate enough to get a lead on Lacombe, they refuse to play for fear of losing it.

It would be much better for Red Deer team to say they are afraid to play than to say they are coming, and back out at the last minute, when the game is all billed.

LINCOLN

Mr. Clarence Eadie has his new saw mill going full force, and is turning out excellent lumber. He is at present cutting on his own place where quite a number of logs have been piled up by various people in the district.

Many local people are rejoicing over the defeat of the "Herd Law" in this section. Those who were against the "Herd By-Law" evidently turned out in force with the result as already noted.

Don't forget the Box Social, programme, followed by a dance. Place Lincoln School House. Date Friday March 19th. Time 8.00 o'clock sharp.

The family of Mr. W. B. Saunders are just about over their recent illness, and we expect to see them all out and about again very soon.

Mr. F. Gustafson has a friend from Buck Lake staying with him for a few days. He arrived in good time and has been able to make himself very useful on the wood pile. We know of several people who would be pleased to see visitors when they have similar work on hand.

TURVILLE

Mrs. Whitten is reported on the sick list this week.

Mrs. Chilcoat was a Lacombe caller on Friday.

Rev. and Mrs. McLaughlin left for Michigan, U.S.A. on Wednesday.

Mr. H. Dameron was a Lacombe caller on Wednesday.

Miss Alberta Dameron and cousin Dorothy Dameron returned to Bentley after spending a few days at H. Dameron's.

The Procter's are now back at school.

Mr. Burton was a visitor at the Lemon home on Wednesday.

Rev. Mr. Rogers and Mr. Burton were visitors at the D. Foren home.

HOCKEY

The Hockey match on Saturday night last was a "real" game of hockey from start to finish. The game ended in a tie, but Lacombe's boys had it over the Edmonton team all the way through, and on several occasions were a couple in the lead. There was not quite as big a crowd as was expected, but those present did their best to sound like a thousand. The Edmonton team played well, and hard, but the Lacombe team simply would not let them get ahead. The game was clean, and there were but a few penalties. One of our players got a bit used at an Edmonton player who called him something that was not nice. The Edmonton player would have got all that was coming to him if the other players did not separate the two. This game winds up the season in the hockey sphere, and as far as we know, Lacombe still has se-

ven players on the team. Our boys played excellent hockey this season, and we hope they stay together.

School Team Vs. Has Been's

In a speedy game of hockey Thursday night last, the Public School Hockey team (McArthur's Invincibles), gave the Old timers the "once over" by a score of 6-5. The Old Timers put up a fierce struggle, but the ultimate outcome was not in doubt for a minute, and the boys rushed into the game like whirlwinds. The boys were too many for them, and could run away from most of the old timers. Dave Hay played his usual good game and scored about two of the five goals. In the first part of the game he nearly scored on several occasions, missing the net by the small margin of about fifteen feet. H. G. Morison, played good, and scored one goal from his own end of the rink. He was on the defence, and one of the boys mistook him for the goal tender and sent an at him striking him in the neck. He survived though, and played out the game. Bill Reid our old war-horse played great, and scored one tally himself. He is right there when it comes to checking, and his best days are not over yet. Fred Steers shot a good cue, and had it not been for him, the score would not have been countable. Less? He played fine and only let in six, they only shot at him eight times. Herb Watt was the star, that is he was up in the air half the time, but nevertheless played a good game. Len Beatty played hard right through, and he has a goal to his credit. He was put off for tripping for two minutes, and never tripped again in the game. Morison was also penalized, the offence being shooting out of turn. Bill Reid was also "fenced" for checking. Less was put off for two minutes for sitting down in the goal.

The Public School boys are a rising team, and if they stay together will no doubt some day become as good as the Old Boys they played last night were at one time. It sure was a pleasure to see some of our old undauntables on the ice again, and they played a wonderful game considering the practice they had; some of them had not been on skates for some 8 or 9 years.

Barrington Prefers to Talk to Nunn by Hand

Editor the Globe, Lacombe.

Dear Sir:

In your last issue you published a letter from Mr. Nunn in which he calls me a liar: in justice to myself, I trust you will grant me space enough to say that far from being a liar, I have put it mildly as regarding the unmitigated nuisance Mr. Nunn has been in his persistent forcing of his attentions and company after he was told plainly they were not reciprocated.

I understand Mr. Nunn was bound over to keep the peace for a term. I must say he goes a very wrong way about keeping or making others keep the peace by calling a person a liar. And if I am a liar, why the unprovoked assault on a perfectly unprepared man?

Mr. Nunn should consider himself lucky that a more serious charge was not preferred against him as it could have been if his victim had not been very lenient.

The cowardly assault committed by him is a blot on the escutcheon of the Nationality he claims for his own, and whose general principle is Fairplay. In conclusion I am maybe slightly older and about fifty pounds lighter than Mr. Nunn, but I shall be glad to demonstrate anytime in a private way without any complications ensuing that I am not a liar and that he is a poor specimen of an Englishman.

Your Truly,

W. H. BARRINGTON.

NOTE—This controversy is now closed so far as the Globe is concerned.

As Mr. Barrington expresses the desire to demonstrate to Mr. Nunn by hand that he is not a liar, it might be well for him to hire the Vex Theatre, have a challenge in the regular way and charge admission for ring-side seats. There would be money in it.

SPRUCEVILLE

Paddy Attends the Whist Drive and Box Social

When there's a whist drive, box social and dance on, an' th' warrud an' aint to me, begorry, I'm there wid both feet an' all the good clothes I can borrow. Wan evenin' of last wake, me old friend Bob Boden, one of the committees as is looking after this hall in Spruceville called me up by telephone an' asked me if I'd jine th' bunch the followin' evenin' as they were goin' to have a big whist drive, box social and dance, as they wanted to git rid of th' debt what the hall owes to the hall for several years. Not bein' busy as is usually my case, I accepted the invitation an' went out to jine the meetin', as I could drive oxen an' mules pretty well I figured I could drive whist too. I reached the place where the big time was to be held without much trouble. I took a stroll around the buildin' gain' at all th' pretty faces an' ready-made clothes an' extra, an' extra, an' all the time listenin' fer some wan to come along an' invite me to jine thim in helpin' thim to drive the whist. Primly just when me blood had fallin' to about six-tilin' pint, Davy Boden (an' sure he's th' son uv his good old dad) came along and shopped me on th' back wid the right side of his left han, an, sez, "Paddy O've ban lookin' fur yos to come and play wid us. We know you cudent drive whist wid a stock whip, but we know yer have a desire to take 'everythin' what comes your way, so we'll give yes a trial. Now Davy has the proud distinction iv bein' one of th' best players in th' district, an' knows a good player whin he sees him, so I wussent lang in acceptin' his invitation. Th' compliment extended me by Davy put me in good spirits an' not thinkin' iv tomorrow an' carin' very little about the game as it went, I accompanied Davy to the playin' department of th' buildin', bein' also well pleased whin Percy Young (th' walkin' boss) sez "two more players," meanin' me as wan iv thim. I stepped up to the table jokin' th' moity Casey an' sat down opposite my partner, an' pullin' in a couple of deep breaths an' shippin' on my hands, "sthood at attention for the order to begin. After considerable enthusiastic talk about the way to go drivin' whist Percy gave the word an' the game started likety split. I don't remember which side Of was on except that we lost. After a while Percy ordered us to stop playin' and shortly afterwards he climbs onto a box an' announces that the ladies prize was won by Mrs. R. H. Gee, and that th' men's prize would go to David Fairbank, but advised us to be in a hurry home as more trouble was still to follow. He then called on Ralph Franklin to sell th' big attack iv boxes (full of good things to eat) and begorry he ez an auctioneer, Ralph hez thim all shandin' at th' post. It's meself, ez is thinkin' that his tongue works on a swivel, for every time I would say \$2.50 begorry he would say \$5.20 I've got, an away would go his tongue faster than iver, an' whin the sale was finished, me pile was reduced to sich an extent that even what was left cudent folnd th' hole in th' bottom uv my pocket. After the money had all been counted, Orme Young gets up an' he sez sez he "ladies an' gentlemen, it gives me much pleasure to announce that th' proceeds amount to \$164.00". After which somebody hollered "iverybody dance", th' music started and away went th' dancers likety split, an' all the toime Billy

There Is One Thing

AND ONE ONLY COSTS YOU
LESS TO-DAY THAN IT DID
TEN YEARS AGO—THAT IS
YOUR FIRE INSURANCE

The Credit for that Fact belongs to Your Own Company

The Lacombe Farmers Mutual Fire Insurance Company

Are You Supporting it? Are You Insured in it?
If so are you sufficiently insured? If not, Why Not?

keeping Your Money in Your Own District.

JOHN McKENTY

LACOMBE

Managing Director

Doole wuz standin' on a bench an' hollerin' "all fine han's and away to th' left. Kiss when you meet an' promenade back an' extra, an' extra." I looked on fur sum toime expectin' a special invitation to jine th' promenade but niver a wan noticed me nor had th' nerve to ax me. After holdin' up the side of the wall for some time as I watched the dancers go flirin' by, Of resigned me job and came away home hopin' there would soon be another social time in Spruceville.
